

Paper Code : 11016
University Examination – February 2021
MBBS 3rd Professional Part-I
Community Medicine
First Paper

Time: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Q.1. Describe the epidemiological determinants, prevention and control of Influenza. (10 Marks)

Define screening. What are the uses of screening? (5 Marks)

Enumerate the tools of measurement in epidemiology. Briefly describe each. (5 Marks)

Balanced Diet (5 Marks)

Incubation period (5 Marks)

Part B

(30 Marks)

Describe methods of chlorination. What is the role of residual chlorine in drinking water? (10 Marks)

Acculturation (5 Marks)

Uses of Growth Chart (5 Marks)

Health Hazards of health care waste (5 Marks)

Schick Test (5 Marks)

Paper Code : 11017
University Examination – February 2021
MBBS 3rd Professional Part-I
Community Medicine
Second Paper

: 3 hours

Maximum marks: 60

: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Define Couple protection rate and discuss the various contraceptive methods used for family planning.

(10 Marks)

Outline the Radical treatment for malaria

(5 Marks)

Cost-benefit analysis

(5 Marks)

Classify hormonal contraceptives. Write briefly about their side effects.

(5 Marks)

What is a growth chart? Enumerate the uses of the growth chart.

(5 Marks)

Part B

(30 Marks)

Define Primary Health Care. Enumerate and describe the principles of primary health care.

(10 Marks)

Sickness absenteeism

(5 Marks)

List Nutritional Assessment methods and describe in brief Anthropometry.

(5 Marks)

Management of dog bite

(5 Marks)

COVID-19 pandemic

(5 Marks)

Paper Code : 11016
Complementary University Examination – October-November 2020
MBBS 3rd Professional Part-I
Community Medicine
First Paper

: 3 hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Describe the concept 'Natural History of Disease' with the help of a diagram. Mention the levels of prevention and modes of intervention.

Write the advantages and disadvantages of a case control study. **(10 Marks)**

(5 Marks)

Write in brief about types of screening giving examples. **(5 Marks)**

(5 Marks)

Discuss the spectrum of iodine deficiency disorders and their health hazards.

(5 Marks)

Write short notes on:

(2½ Marks Each)

a) Acculturation

b) Prudent diet

Part B

(30 Marks)

Define the term 'Bio-Medical waste'. What are the different categories of BW in India? Describe in brief the method of disposal.

(10 Marks)

Describe the measures of dispersion.

(5 Marks)

What is disaster? Enumerate the different types of disaster.

(5 Marks)

Enumerate the steps of investigation of an epidemic.

(5 Marks)

Describe the basic tools of measurement in epidemiology.

(5 Marks)

Paper Code : 11017
Elementary University Examination – October-November 2020
MBBS 3rd Professional Part-I
Community Medicine
Second Paper

hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Describe the epidemiology of tuberculosis and the current protocol for treatment under NTEP. (10 Marks)

What is a population pyramid and what is its significance? (5 Marks)

Enumerate the warning signals of poor mental health. (5 Marks)

What are the measures of central tendency? What are its limitations? (5 Marks)

Explain briefly oral rehydration therapy. (5 Marks)

Part B

(30 Marks)

Define Primary health care. List the elements of primary health care. Briefly explain the principles of primary health care. (10 Marks)

Define objective, target and goal. (5 Marks)

Write a short note on:

WIFS

Menstrual hygiene scheme

Enumerate the areas of intervention by WHO in order to promote international standards in the field of health. (5 Marks)

Enumerate and briefly describe the occupation hazard an industrial worker is exposed to. (5 Marks)

Paper Code : 11016
University Examination – February 2020
MBBS 3rd Professional Part-I
Community Medicine
Paper First

3 hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

	Part A	(30 Marks)
Define epidemiology. Write briefly time distribution of observational epidemiology studies.		(4+6=10 Marks)

Criteria for screening	(5 Marks)
------------------------	------------------

Mortality indicators of health	(5 Marks)
--------------------------------	------------------

Adverse Events Following Immunization (AEFI)	(5 Marks)
--	------------------

Sampling in population studies	(5 Marks)
--------------------------------	------------------

Part B	(30 Marks)
Integrated Child Development Services Scheme (ICDS)	(10 Marks)

Activated sludge process of sewage treatment	(5 Marks)
--	------------------

Habits of mosquitoes	(5 Marks)
----------------------	------------------

Genetics counselling	(5 Marks)
----------------------	------------------

Side effects and complications of intrauterine contraceptive devices (IUCD)	
---	--

Paper Code : 11017
University Examination – February 2020
MBBS 3rd Professional Part-I
Community Medicine
Paper Second

hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A	(30 Marks)
national framework for malaria elimination in India	(10 Marks)
family in health and disease	(5 Marks)
methods of dietary assessment	(5 Marks)
group discussion	(5 Marks)
UNICEF in child care	(5 Marks)

Part B	(30 Marks)
MNCH+A strategy (Reproductive, Maternal, Newborn, Child and Adolescent health)	(10 Marks)
primary prevention of cardio vascular diseases	(5 Marks)
principles of primary health care	(5 Marks)
replacement examination	(5 Marks)
monitoring	(5 Marks)

Paper Code : 11016
MBBS 3rd Professional Part-I
Supplementary University Examination – June 2019
Community Medicine
Paper First

hours

Maximum marks: 60

attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams. Parts of a question must be answered together.

Part A

(30 Marks)

Describe the levels of prevention in detail.

(10 Marks)

Differentiate between the following :

(4 Marks Each)

Case Control & Cohort studies

Screening & Monitoring

Write short notes on the following:

(4 Marks Each)

Herd Immunity

PQLI (Physical Quality of Life Index)

Measures of Central tendency

Part B

(30 Marks)

What are the indicators of MCH care? Write down the preventive and social measures to reduce infant mortality in U.P.

(10 Marks)

Briefly describe the following :

(4 Marks Each)

Demographic cycle

Integrated Vector Control

Write short notes on the following:

(4 Marks Each)

Sanitation barrier

Genetic Counselling

Indicators of Air Pollution

Paper Code : 11017
MBBS 3rd Professional Part-I
Supplementary University Examination – June 2019
Community Medicine
Paper Second

hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams. Parts of a question must be answered together.

Part A

(30 Marks)

Briefly describe the prevention & control of :

Malaria

(5 Marks)

STI/RTI

(5 Marks)

(4 Marks Each)

Write short notes on the following :

Vitamin A Prophylaxis Programme

Food Fortification

Barriers of Communication

(4 Marks Each)

Write briefly on the following:

Management of Diarrhea as per IMNCI (Integrated Management of Neonatal and Childhood Illness) protocol

WHO (World Health Organization)

Part B

(30 Marks)

Briefly describe the following :

NACP Programme

(5 Marks)

Services provided by NACO (National AIDS Control Organizations)

(5 Marks)

(4 Marks Each)

Write short notes on the following :

pneumoconiosis

Disaster Cycles

PERT (Program Evaluation and Review Technique)

(4 Marks Each)

Write briefly on the following:

Dietary guidelines for prevention of NCDs (Non-communicable diseases)

Elements of Primary Health Care

Paper Code : 11016
MBBS 3rd Professional Part-I
University Examination – February 2019
Community Medicine
Paper First

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Q.1. Define Epidemiology. Describe the steps of Case-Control study. How it is differentiated from cohort study.

(2+5+3=10 Marks)

Q.2. Write short notes on the following :

(4 Marks Each)

- (a) Active and Passive immunization
- (b) PQLI
- (c) Sampling
- (d) Secondary Attack Rate
- (e) Type of screening

Part B

(30 Marks)

Q.1. Define MMR. Enumerate various causes of maternal mortality in India. Write in brief about Janani Suraksha Yojana

(2+2+6=10 Marks)

Q.2. Write short notes on the following :

(4 Marks Each)

- (a) Pearl index
- (b) Anti adult measures of mosquito control
- (c) Genetic Counseling
- (d) Demographic cycle
- (e) Sanitation Barrier

Paper Code : 11016
MBBS Third Professional (Part-I) Examination – Feb. 2018
Community Medicine
Paper First

Time : Three Hours

Maximum Marks : 60

Note : Attempt all questions and their parts in the sequence given in question paper. Answer Part A and Part B in separate answer book. Explain your answer with appropriate diagrams.

Part A

(Marks 30)

- Q. No. 1. What are Vector Borne Diseases? Enumerate various vector borne diseases. Write in detail about prevention and control of any one important vector borne disease. 10 Marks
- Q. No. 2. Write briefly the following : 2 ½ Each
- (a) Chlorination of water
 - (b) Test of significance
 - (c) Corrected effective temperature
 - (d) Demographic cycle
- Q. No. 3. Write short notes on the following : 2½ Each
- (a) Population pyramid
 - (b) Primordial prevention
 - (c) Prevalence and incidence
 - (d) Overcrowding

Part B

(Marks 30)

- Q. No. 1. Define maternal mortality rate (MMR). Enumerate the causes of maternal mortality in India. Write national programmes to reduce the maternal mortality in India. 12 Marks
- Q. No. 2. Describe briefly the following : 5 Each
- (a) Define Epidemic. Write aims and objectives of investigation of epidemics. Enumerate the steps of investigation of epidemic.
 - (b) Randomized control trial.
- Q. No. 3. Write short notes on the following : 4 Each
- (a) Euthenics
 - (b) Types of family

Paper Code : 11017
MBBS Third Professional (Part-I) Examination – Feb. 2018
Community Medicine
Paper Second

Time : Three Hours

Maximum Marks : 60

Instructions : Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part A

(Marks 30)

No. 1. Describe the status of dengue in our country and the detailed present strategy recommended for its prevention and control.

10 Marks

No. 2. Write short notes on the following :

3 Each

- (a) Ecology of malnutrition
- (b) Principles of health education
- (c) UNICEF
- (d) Japanese Encephalitis (JEs)

No. 3. Write briefly on the following :

2 Each

- (a) Vitamin A
- (b) Food fortification
- (c) DOTS
- (d) Herd immunity

Part B

(Marks 30)

No. 1. Enumerate various common types of cancers in India. Also describe in detail about cancer control and cancer screening.

10 Marks

No. 2. Write short notes on any two of the following :

5 Each

- (a) Sickness absenteeism
- (b) Health care system
- (c) Network analysis
- (d) Empowered action group

No. 3. Write briefly about any two of the following :

5 Each

- (a) Tracking of blood pressure
- (b) Planning programming budgeting system
- (c) Primary Health Centre
- (d) Stroke control programme

Note : Attempt all questions and their parts in the sequence given in question paper. Answer Part A and Part B in separate answer book.

Part—A

(Marks : 30)

1. Write epidemiology, control and prevention of measles. 10

2. Write short notes on the following : $2\frac{1}{2}$ each

(a) WHO

(b) Balanced Diet

(c) Methods of communication

(d) BCG

3. Write briefly about the following : $2\frac{1}{2}$ each

(a) IFA tablets

(b) Yellow fever vaccination

- (c) Role of health education in prevention and control of HIV/AIDS
- (d) DOTS

Part—B

(Marks : 30)

1. Enumerate components of primary health care. Write population norms of CHS, PHC and subcentre. Enumerate the staff of CHC and services being provided at CHC. 10
2. Write in short about the following : 2 each
 - (a) Essential obstetric case
 - (b) Millennium development goals
 - (c) Safe water
 - (d) Surveillance
 - (e) Extrinsic Incubation period
- Write in brief the following : 2 each
 - (a) Net Reproduction Rate
 - (b) Safe Blood
 - (c) Food Fortification
 - (d) Male-I
 - (e) Define Primordial Prevention with example

Part - A

(Marks : 20)

1. Write in brief on the following : 2 each

- (a) Dynamics of disease transmission
- (b) Natural history of disease
- (c) Attributable risk
- (d) Immunizing agents

2. Write short notes on the following : 2 each

- (a) Nutritional assessment
- (b) Iodine deficiency disorders control programme
- (c) W. H. O.
- (d) Methods of communication

P. T. O.

3. Discuss in brief about any two of the following : 2 each

(a) A. F. P. surveillance

(b) Measurement of malaria

(c) Case control study

Part - B

(Marks : 20)

1. Write the objectives and landmarks of National Rural Health Mission. 6

2. Write in brief about : 8

(a) Newer components of R. C. H.

(b) Health Planning Cycle

(c) Types of Epidemics

(d) Estimation of risk of disease

3. Write shortly about the following : 6

(i) M. D. G. Indicators

(ii) Measurements of frequency

(iii) Primordial prevention

(iv) Secondary attack rate

(v) Community Health Center

(vi) Pneumoconiosis

MBBS-16

M. B. B. S. (Third Professional)
EXAMINATION, 2011

COMMUNITY MEDICINE

Paper First

Time : Three Hours

[Maximum Marks : 40

Note : Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part - A

(Marks : 20)

1. Write in short the following : 4 each
 - (i) Indicators of health
 - (ii) Levels of prevention
2. Write in brief on the following : 4 each
 - (i) Water related diseases
 - (ii) Radiation related health hazards
3. Write short notes on the following :
 - (i) Demographic cycle 1
 - (ii) Bar diagramme — its uses in health 1
 - (iii) Anti-adult measures of control 2
mosquitoes

[2]

Part-B

(Marks : 20)

1. What is an Epidemiology ? Discuss in brief and write in short about uses of Epidemiology. 10
2. Write short notes on the following : 2 each
 - (i) Types of screening
 - (ii) Intelligent quotient
 - (iii) Chromosomal abnormalities
3. Write short notes on the following :
 - (i) MCH problems 1
 - (ii) Antenatal care 1
 - (iii) Growth chart 2

MBF S-17

**M. B. B. S. (Third Professional)
EXAMINATION, 2011
COMMUNITY MEDICINE**

Paper Second

Time : Three Hours] [Maximum Marks : 40

Note : Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part - A (Marks : 20)

1. Discuss the components of 'Balanced Diet'.
Draw a diet plan for a 45 years old diabetic patient. 7
2. Describe the epidemiological features of measles, its public health importance and prevention. 7
3. Write short notes on the following : 2 each
 - (a) Window period of HIV infection
 - (b) Work of W. H. O.
 - (c) Communication barriers

P. T. O.

[2]

Part - B

(Marks : 20)

1. Describe the multifactorial etiology of coronary artery disease, its prevention and control. 7
2. Enumerate National Health Programmes in India. Discuss in detail the strategy in Revised National Tuberculosis Control Programme (RNTCP). 7
3. Write briefly on the following : 2 each
 - (a) PERT
 - (b) FRU
 - (c) Asbestosis

Lib. 62-File
MBBS - 16

M.B.B.S. (Third Professional) EXAMINATION, 2009

COMMUNITY MEDICINE

Paper - I

Time Allowed:- Three Hrs

Maxmimu Marks:- 60

Note: Attempt all questions. Write answer in separate answer book for Part (A) and Part(B). Explain your answer with appropriate diagrams.

(PART - A)

Maximum Marks-30

Q 1- Define demography. Write about fertility and enumerate the indicators to measure It and factors associated with high fertility in India. 10
5+5

Q 2- Briefly discuss:

- a. Global warming and water conservation
- b. ~~Water borne diseases and sanitation barrier~~

4+3+3

Q 3- Write short notes on

- a. Natural History of Disease
- b. Biological Transmission
- c. Census

(PART - B)

Maximum Marks-30

Q 1- How will you investigate and control on outbreak of diarrhoeal diseases in a primary health centre area 10

Q 2- (a) Briefly describe the various modes of transmission of communicable Diseases 5

(b) Describe briefly the various causes of maternal mortality in India and national programmes for their prevention 5
3+4+3

Q 3- Write short notes on

- a. Rehabilitation
- b. Cold chain equipment
- c. Sensitivity and specificity

COMMUNITY MEDICINE

Paper - II

Maximum Marks:- 60

Time Allowed:- Three Hrs

Note: Attempt all questions. Write answer in separate answer book for Part (A) and Part (B). Explain your answer with appropriate diagrams.

(PART - A)

Maximum Marks-30

Q 1- How will you assess a 24 months old child suffering from diarrhoea for dehydration. How will you treat some dehydration in him. 12
3+3+3

Q 2- Describe the following:

- ☒ a. Nutritional surveillance
- ☒ b. Food fortification
- ☒ c. B.M.I.-

Q 3- Write briefly

- ☒ a. B.C.C.
- ☒ b. UNICEF

13.5 ✓
2.3 ✓
1.5
2.7
21.5

4.5+4.5

(PART - B)

Maximum Marks-30

Q 1- Enumerate National Health programme. Write epidemiology prevention and control of Hypertension, 10

Q 2- (a) Write the element of primary health care 4+3+3
(b) Write the steps of planning cycle
(c) Health care delivery indicators

Q 3- Write short notes:

- ☒ a. Janani Suraksha Yojana
- ☒ b. Human Development Index
- ☒ c. Adverse Heat Effects
- ☒ d. Extended sickness benefits under ESI scheme 3+2+2+3

SEND UP EXAMINATIONS MAY-JUNE, 2018
Community Medicine (Paper I)

Venue: Examination Hall
Time: 2:00 PM To 5:00 PM

Date: 23-05-2018
Max Marks: 100

Section A

Long Question (15 Marks each)

1. Describe natural history of diseases, various levels of prevention, modes of interventions and determinants of health (Marks 5+5+5=15)
2. Integrated approach for vector control. (Marks =15)

Short Question (5 Marks each)

1. Basic steps of Randomized Control Trial
2. Types of Screening
3. Sampling
4. Measures of central tendency

Section B

Long Question (15 Marks each)

1. Define MMR. Write various causes of Maternal Mortality in India. Write in brief about a national Programme for control of Maternal Mortality in India. (Marks 3+6+6=15)
2. Enumerate objectives of Antenatal Care and write in detail about Preventive services for mothers. (Marks 5+10= 15)

Short Question (5 Marks each)

1. Iceberg phenomenon
2. Monitoring of Air Pollution
3. Types of Genetic Counselling
4. Draw the Disaster Management Cycle

hours

Maximum marks: 60

Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

Enumerate and briefly describe the types of observational studies.

(10 Marks)

What is herd immunity and why is it important.

(5 Marks)

Describe the iceberg phenomenon? Explain giving suitable examples.

(5 Marks)

What is cold chain? Describe the equipments used in maintaining cold chain.

(5 Marks)

Write a short notes on:

(2½ Marks Each)

(i) Generation time

(ii) Pasteurization of milk

Part B

(30 Marks)

Describe the levels of prevention of disease. How would you apply these levels in preventing CHD in a given population?

(10 Marks)

Differentiate between isolation and quarantine.

(5 Marks)

Define :

(1 Mark Each)

PQLI

Droplet nuclei

Pandemic

Attributable risk

Reservoir

Describe in brief "a randomized controlled trial".

(5 Marks)

Enumerate the mortality indicators.

(5 Marks)

Send Up Examination Third Professional Part I (2010 Batch)

Community Medicine (14 Jan 2015)

Paper I

{Time: Three hours}

{Maximum Marks: 60}

Note: Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part A {Marks :30}

1. Classify Epidemiologic methods. Describe in detail about "case control study".
5+8=13

2. Write short notes on following: 3+3+3=9

- (i) Epidemiological triad (ii) Health hazards of air pollution
(iii) Emergency contraceptive Methods

3. Write short notes on following: 4+4=8

- (i) Sampling Methods (ii) Integrated approach for vector control

Part B {Marks :30}

1. Define MMR and write the causes of MMR in India. Describe in brief national programmes for the control of MMR in India. { 2+4+7=13}

2. Write short notes on following: 3+3+3=9

- (i) Uses of screening (ii) Uses of growth chart (iii) Prenatal Diagnosis

3. Write short notes on following: 2+3+3=8

- (i) Function of Family (ii) Herd Immunity (iii) Latent period

Paper Code : 11017
Send-up Examination – January 2021
MBBS 3rd Professional Part-I
Community Medicine
Paper Second

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

Q.1. Which diseases are covered under the National Vector Borne disease control programme? Describe the milestones and targets set for Malaria elimination in India. (30 Marks)

Describe the steps involved in the planning cycle. (10 Marks)

Classify hormonal contraceptives. Write briefly about their side effects. (5 Marks)

Enumerate and very briefly discuss the major co-morbidities in tuberculosis. (5 Marks)

What is a growth chart? Enumerate the uses of the growth chart. (5 Marks)

Part B

(30 Marks)

Define Primary Health Care. What are its components? Describe how primary health care is provided in the rural areas of India. (10 Marks)

Write short notes on: (2½ Marks Each)

a) Composition of ORS

b) Post exposure prophylaxis in rabies

Describe the mode of transmission, clinical manifestation and diagnosis of coronavirus disease-19 (Covid-19). (5 Marks)

Enumerate the symptoms of drug addiction. (5 Marks)

Describe forms of protein energy malnutrition. Describe methods of early detection of PEM. (5 Marks)

SEND UP EXAMINATIONS MAY-JUNE, 2018
Community Medicine (Paper II)

Place: Examination Hall
Time: 2:00 PM To 5:00 PM

Date: 24-05-2018
Max Marks: 100

Section A

Question (15 Marks each)

Describe Epidemiology of Measles and also write in details about prevention and control of Measles. (Marks 5+10=15)

Define balanced diet. Write its importance in pregnant and lactating mother. Plan a balanced for pregnant and lactating mother (Marks 3+6+6=15)

Question (5 Marks each)

GOBIFFF

Classification of Malnutrition

DOTS Plus

Post-exposure Prophylaxis of dog bite

Section B

Question (15 Marks each)

Describe Various Risk Factors and Prevention and control measures for Diabetes Mellitus. (Marks 5+10=15)

Describe National Vector-Borne Disease Control Programme. (Marks =15)

Question (5 Marks each)

Anganwadi workers

Planning Cycle

Syndromic Approach Management with examples

ESI Act

Community Medicine (15 Jan 2015)Paper II

{Time: Three hours}

{Maximum Marks: 60}

Note: Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part A {Marks :30}

1. Describe the epidemiology of Measles and its public health importance; write in brief prevention and control of Measles. (6+7=13)

2. Write short notes on following: 3+3+3=9

- (i) Window period of HIV (ii) WHO (iii) Nutritional Anemia

3. Write short notes on following: 2+3+3=8

- (i) Triage (ii) Health Education versus Propaganda

(iii) DOTS Plus

Part B {Marks :30}

1. Write in short the following: 6+7=13

- (i) Population norms, staffing pattern, IPHS standards and Functions of Sub center.
(ii) Write in brief risk factors and prevention and control of Hypertension.

2. Write short notes on following: 3+3+3=9

- (i) FRU (ii) Asbestosis (iii) Risk factors and screening of cervical cancer

3. Write short notes on following: 2+4+2=8

- (i) PERT (ii) WHO classification & treatment of Leprosy (iii) ASHA
