

Send Up Examination, Batch 2020, November 2023
Community Medicine Paper 1
Rohilkhand Medical College & Hospital, Bareilly

Time: 3 hours.

Marks: 80+20=100

Note: Attempt all question in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Section A (Marks: 40)

Q1. Structured Long Essay Questions/Problem based questions/ Modified Essay Questions

You are working as scientist B in an institute and you are planning research to conduct in the catchment areas of your institute.

Answer the following question in context with above scenario (2+4+6 = 10 Marks)

- a. Define epidemiology
- b. Enlist the type of epidemiological studies.
- c. Explain briefly the merits and demerits of case control and cohort study design.

Q2. Short Essay Questions (SEQs) (6 marks each=30Marks)

- a. Describe the uses of screening
- b. Draw the diagrams of 3 types of graphs frequently used in data presentation
- c. Explain the natural history of diseases
- d. Differentiate between active and passive immunization using examples of immunization against tetanus and rabies
- e. Discuss the steps of investigation of an epidemic

Section B (Marks: 40)

Q1. Structured Long Essay Questions/Problem based questions/ Modified Essay Questions

An epidemic of diarrhoea of unknown aetiology has occurred in the nearby locality, suspects say they have common source of water supply from nearby river. How will you carry out surveillance of this water supply on following parameters

Answer the following question in context with above scenario (Marks 2+2+6=10)

- a. Describe steps of sample collection of water
- b. Discuss the methods of transportation of water sample
- c. Explain the surveillance of drinking water

Q2. Short Essay Questions (SEQs) (6 marks each=30Marks)

- a. Discuss the newer techniques in health based on genetic engineering
- b. Explain the principles and uses of essential medicine under NHM
- c. Describe the third generation IUDs
- d. Explain the IMNCI role in preventing Diarrhoeal diseases
- e. Enumerate the indicators of fertility and describe any one

Time: 3 hours

Max. Marks: 80 + 20 = 100

Note: Attempt all question in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Section A (Marks: 40)

Q1. Structured Long Essay Questions / Problem based questions / Modified Essay Questions

Sohan, a 61 year old male resident of Rithora, was suffering from cough more than 3 weeks and fever with evening rise of temperature for last 2 weeks. He had taken treatment only for fever and cough but the complaints persisted. He was referred to district hospital where on sputum examination his two sputum samples were found positive for AFB. Sohan had not taken any previous treatment for tuberculosis.

Answer the following question in context with above scenario (marks = 1+2+3+2+2=10)

- Explain the category of DOTS applicable to the patient.
- Describe the other types of patients come under this category.
- Describe the treatment regimen for the above category.
- Define New Case, relapse, MDR and XDR of tuberculosis.
- Discuss the preventive measures against the childhood tubercular meningitis?

Q2. Short Essay Questions (SEQs) (6 marks each=30Marks)

- Discuss about the components of the iodine deficiency disorders under the iodine deficiency disorder control programme
- Describe the Primary mental health care & its implementations.
- Describe the activities of WHO in disease control and health promotion as per the World health day theme 2023
- Explain with examples the various characteristics used for social stratification and their use along with Cultural factors in Health and Diseases
- Describe principles of health education

Section B (Marks: 40)

Q1. Structured Long Essay Questions / Problem based questions / Modified Essay Questions

Asthe medical officer of a PHC you have to check the work of Anganwari worker and he was not satisfied with the services provided by her in the village.

Answer the following question in context with above scenario (Marks 5+1+2+2=10)

- Prepare a project to improve the services of the Anganwari worker in the catchment areas of your hospital. Enumerate the steps of project protocol prepared by you.
- Differentiate Between objective and goal in health planning
- Differentiate Between Cost benefit and cost-effective analysis
- Differentiate Between Programme evaluation and review technique and critical path method

Q2. Short Essay Questions (SEQs) (6 marks each=30Marks)

- Describe the phases in disaster management
- Classify the risk factors of non-communicable diseases
- Discuss the medical benefits under ESI schemes
- Describe the Janni Suraksha Yojana (JSY)
- Discuss strategies and services of School Health Program

Diab

Remedial Examination
Batch 2020, September, 2023

Community Medicine

Rohilkhand Medical College and Hospital, Bareilly

Max. Marks: 40

Time 1 hour 50 Minutes

Note :

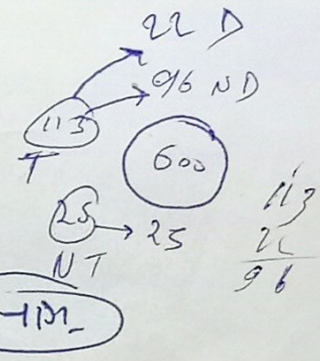

- Attempt all questions
- Write theories answers in separate answer book

Long answer question

Q1. Read the following case scenario and answer the questions (Marks 10)

A study from BIU examined whether the risk of Hepatitis C (Hep C) was related to whether people had tattoos. A sample of 600 individuals was randomly selected from the student population. In this sample 113 had a tattoo. For individuals with a tattoo, 22 were found to have Hepatitis C and for individuals without a tattoo, 25 were found to have Hepatitis C. Researchers want to know if there is evidence from this study of an increased prevalence of Hep C for individuals with a tattoo amongst the population from which they were sampled.

- What study design is being used in this example? [1 mark]
- Explain the detail steps of above study design? [2 marks]
- Give formal statements of the Null and Alternative hypotheses. [2 marks]
- Interpret the data in details? [3 marks]
- Classify the various types of study designs? [2 marks]

Q2. Short Answer Questions (6 Marks x 5=30 Marks)

- Explain the importance of human wellbeing indexes.
- Explain the criteria for evaluation of screening tests
- Enumerate vaccines and describe schedule, dose, site and modes of vaccination in the National Immunization Schedule
- Draw the labelled diagram of normal distribution curve. Write its characteristics.
- Classify the interventional studies. Write steps to conduct any one type of interventional study.

Remedial Examination - 3

MBBS 3rd Professional (Part -I)
Send up Examination 2022
Batch 2019, December 2022
Community Medicine
Paper 1

Time: 3 hours

Maximum Marks: 100

Note:

- (i) Attempt all questions
 - (ii) For MCQs separate answer sheet is provided which will be taken back after 20 minutes of the start
 - (iii) Write theories answers in separate answer books for section A and section B
- MCQs (20 Questions) of 1 Mark each (1x20=20 Marks)

Section - A (40 Marks)

Q1. A medical officer recently recruited in a primary health centre (PHC), Under catered area of the PHC there is a village with a population of 2200 and in this village there is an outbreak of a disease due to which 352 cases developed loose watery stool, increased thirst and vomiting. (2+5+3= 10 Marks)

- a) What is this condition called?
- b) How the medical officer will investigate this outbreak, describe the steps.
- c) What will be the recommendations made by the medical officer to the stakeholder at various levels to prevent the recurrence of this types of outbreaks in future?

Q. 2. Short Answer Questions (SAQs) (6 Marks each=30Marks)

- a) Determinants of Health
- b) Randomized Controlled Trials — *double blind, prospective, randomization, Placebo factors*
- c) Herd Immunity
- d) Chi-Square Test
- e) Uses of Screening → *case control, educational, control of disease, Research program*

Section - B (40 marks)

Q.1. An educational institute is situated in a geographical area which has annual parasite index <1. District Malaria Office of the area conducted a survey and found the index density of mosquitoes to be 5.5 in the affected areas against the permissible limit of 2. (2+4+2+2= 10 Marks)

- a) Explain the relevance of two indices mentioned in the above scenario
- b) Describe the integrated approach of mosquito control
- c) Discuss the seasonal variations in mosquitos' density in northern India
- d) Enumerate the insecticidal agents indicated for use in the campus of an educational institute

DDT, Malathion, propoxur, Pyrethrum

Q2. Short Answer Questions (SAQs) (6 Marks each=30Marks)

- a. Demographic cycle
- b. Genetic counselling
- c. Objectives and aspects of School Health Services
- d. Objectives of Ante Natal Care (ANC)
- e. Importance of feedback in communication process

MBBS 3rd Professional (Part -I)
Send up Examination 2022

Community Medicine
Paper 2

Time: 3 hours

Note:

Maximum Marks: 100

- (i) Attempt all questions
- (ii) For MCQs separate answer sheet is provided which will be taken back after 20 minutes of the start
- (iii) Write theories answers in separate answer books for section A and section B

MCQs (20 Questions) of 1 Mark each

(1x20=20 Marks)

Section - A (40 Marks)

Q1. Sohan, a 61 year old male resident of Rithora, was suffering from cough more than 3 weeks and fever with evening rise of temperature for last 2 weeks. He had taken treatment only for fever and cough but the complaints persisted. He was referred to medical college & hospital where on sputum examination his two sputum samples were found positive for AFB. Sohan had not taken any previous treatment for tuberculosis. (2+3+5=10 Marks)

- a) Explain the diagnosis of the case with appropriate reason?
- b) Discuss the classification of the cases for treatment.
- c) Describe diagnostic algorithm for these types of case under national health programme

Q2. Short Answer Questions (SAQs) (6 Marks each=30Marks)

- a) Enumerate the WHO regions and name the cities of their head quarters
- b) Describe the services in Mental Health provided at village
- c) Discuss the effect of social stratification in health and diseases
- d) Enumerate the spectrum of conditions under iodine deficiency disorders

- e) Describe the strategies in maternal and neonatal tetanus elimination

5c strategy

Section - B (40 Marks)

Q1. Define the health Planning. Draw the flow chart of planning cycle. Describe various stages of health planning. (2+3+5= 10 Marks)

Q2. Short Answer Questions (SAQs) (6 Marks each=30Marks)

- a) Discuss the recommendations of Bhore Committee for development of public health care delivery system in India
- b) Classify the risk factors of Hypertension
- c) Describe the pneumoconiosis
- d) Discuss the work of ASHA, Anganwadi & ANM at village level
- e) Explain the role of members of Rapid Response Team (RRT) in pandemic management

PHC, CHC

Remedial Examination
Batch 2019, November 2022
Community Medicine
Rohilkhand Medical College & Hospital, Bareilly

(Max. Marks: 50)

Time: 2:00 Hours

Note: Attempt all question in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Q1. Swapnil, an 11-month-old boy, weight 6.0 kg, developed rashes along with a spot in the mouth at 2nd molar after three days of his symptoms his brother also get the similar rashes, by chance on ASHA regular visit to his house, noticed the same and report it to you. How will you take this ahead.
(1+1+2+4+2=10Marks)

- a) What is this sign called?
- b) What is the probable diagnosis of this condition?
- c) What is the line of management?
- d) Is this the epidemic alert for you if yes then justify your answer?
- e) What measures can be taken to prevent this in India?

Q2. A 50 Year all male came to the Community Medicine OPD and ask for preventive health check up so tell what all preventive health check up you will advice to him? **(10 Marks)**

Q3. Write short notes on following **(3 marks each = 30)**

- A) Epidemic
- B) Screening for breast cancer
- ✓ C) Odds ratio
- ✓ D) Ice berg phenomena
- ✓ E) Epidemiological triad
- F) Polio as threat of epidemic
- G) Bidirectional cohort
- H) Z score
- I) UIP schedule
- J) Standard deviation

Paper Code : 11016

Send-up Examination – January 2022

MBBS 3rd Professional Part-I

Community Medicine

First Paper

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B.

PART-A

(30 Marks)

Long Question:

1. Describe natural history of diseases, various levels of prevention, modes of interventions and determinants of health.

(4+2+2+2=10 Marks)

2. **Short Question:**

(5 Marks each)

- a) Phases of clinical trial in context with Covid-19 vaccines
- b) Evaluation of Screening tests
- c) Schedule, dose, site and route for vaccines given in National Immunization Schedule
- d) Inferential statistics for non-parametric data

PART-B

(30 Marks)

Long Question:

1. Define Maternal Mortality Rate. Write various causes of Maternal Mortality in India. Describe Preventive Obstetric Care Provisions in India.

(2+2+6=10 Marks)

2. **Short Question:**

(5 Marks each)

- a) Zoonosis
- b) Noise Pollution
- c) Types of Genetic Counselling
- d) Home based Neo-natal care

Pandemic Module Examination, Batch 2019, November 2022
Community Medicine
Rohilkhand Medical College & Hospital, Bareilly

Time: 60 mins

Max. Marks: 50

Note: Attempt all question in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Q1. Short answer questions - (3 marks each=30Marks)

- a. Rapid Response team ^{ECM}
- b. Sample collection for water microbiological assessment
- c. Covid 19 vaccination
- d. Difference between epidemic and endemic disease
- e. Polio as epidemic threat to India
- f. Contact tracing
- g. International agency role in pandemic
- h. Palliative care in pandemic
- i. Steps of hand washing
- j. Ethical consideration for a covid 19 positive case with respect to admitted patient

Q2. Recently an unknown virus cases have been found to increase in your district so you been the CMO of the district is asked by the DM of the district to make an action plan to overcome this issue. In this situation you must make the appropriate action plan for the above (20 marks)

Remedial Examination, Batch 2019, November 2022
Community Medicine Part III
Rohilkhand Medical College & Hospital, Bareilly

(Max. Marks: 50)

Time: 2:00 Hours

Note: Attempt all questions in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Q1. Raju 6 years old boy, weight 12.0 kg, developed frequent episodes of diarrhoea, tiredness and weakness, abdominal pain and weight loss for last 6 months. For these problems he visited nearest PHC. The Doctor in OPD assessed the case. (10Marks)

- a) Write the steps of assessment. (2 Marks)
- b) Enumerate the causes of his problem. (2 Marks)
- c) What is the line of management? (2 Marks)
- d) What are the preventive measures? (2 Marks)
- e) Write the names of the national health programmes helpful for the case. (2 Marks)

Q2. Define family. Enumerate the stages of the family cycle. Describe various types of family. Discuss the role of family. (1+2+3+4=10 Marks)

Q3. Write short notes on following (3 marks each = 30)

- A) Content of services by UNICEF
- B) Acculturation
- C) Protein Quality Assessment
- D) WHO plan for management of dehydration
- E) Reference man and woman
- F) Recommended Dietary Allowance
- G) Consumer Protection Act, 1986
- H) The Prevention of Food Adulteration Act, 1954
- I) Bilateral International Health Agencies
- J) Mental Health Services in a Community

Remedial Examination, Batch 2019, November 2022
Community Medicine Part IV
Rohilkhand Medical College & Hospital, Bareilly

(Max. Marks: 50)

Time: 2:00 Hours

Note: Attempt all questions in the given sequence. Draw appropriate diagrams and explain with examples wherever necessary

Q1. Rambahadur 45 years old case, height 161cm weight 79 kg, developed increased frequency of urination, excessive thirst or hunger, and sudden weight loss in last 15 day. He visited to the district hospital for seeking treatment for this recently developed disease. The Doctor in OPD assessed the case by taking detailed history and examined thoroughly . (10Marks)

- a) Write the WHO recommended criteria for diagnosis of the disease. (3Marks)
- b) Write the WHO recommended classification of the disease. (3Marks)
- c) Screening criteria for individuals at high risk for the disease? (4Marks)

Q2. Define occupational health. Enumerate various pneumoconiosis. Describe the benefits to employee under Employees' State Insurance. Discuss the role of pre-placement health check up of the employee for the benefits to the employer /company. (1+2+3+4=10 Marks)

Q3. Write short notes on following (3 marks each = 30)

- A) Anaemia Mukta Bharat Abhiyaan
- B) Health Economics
- C) Segregation of hospital wastes
- D) Triage at casualty ward in response to disaster
- E) Tribal Health initiative in India
- F) Health and wellness centres
- G) Integrated disease surveillance programme (IDSP)
- H) Pradhan Mantri Jan Arogya Yojana
- I) Role of ASHA in NPCDCS
- J) NITI Ayog

Paper Code : 11016
Send-up Examination – January 2021
MBBS 3rd Professional Part-I
Community Medicine
Paper First

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

- Q.1. Enumerate and briefly describe the types of observational studies. (10 Marks)
- Q.2. What is herd immunity and why is it important. (5 Marks)
- Q.3. Describe the iceberg phenomenon? Explain giving suitable examples. (5 Marks)
- Q.4. What is cold chain? Describe the equipments used in maintaining cold chain. (5 Marks)
- Q.5. Write a short notes on: (2½ Marks Each)
- (a) Generation time
 - (b) Pasteurization of milk

Part B

(30 Marks)

- Q.1. Describe the levels of prevention of disease. How would you apply these levels in preventing CHD in a given population? (10 Marks)
- Q.2. Differentiate between isolation and quarantine. (5 Marks)
- Q.3. Define : (1 Mark Each)
- (a) PQLI
 - (b) Droplet nuclei
 - (c) Pandemic
 - (d) Attributable risk
 - (e) Reservoir
- Q.4. Describe in brief "a randomized controlled trial". (5 Marks)
- Q.5. Enumerate the mortality indicators. (5 Marks)

Paper Code : 11017
Send-up Examination – January 2021
MBBS 3rd Professional Part-I
Community Medicine
Paper Second

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A (30 Marks)

- Q.1. Which diseases are covered under the National Vector Borne disease control programme? Describe the milestones and targets set for Malaria elimination in India. (10 Marks)
- Q.2. Describe the steps involved in the planning cycle. (5 Marks)
- Q.3. Classify hormonal contraceptives. Write briefly about their side effects. (5 Marks)
- Q.4. Enumerate and very briefly discuss the major co-morbidities in tuberculosis. (5 Marks)
- Q.5. What is a growth chart? Enumerate the uses of the growth chart. (5 Marks)

Part B (30 Marks)

- Q.1. Define Primary Health Care. What are its components? Describe how primary health care is provided in the rural areas of India. (10 Marks)
- Q.2. Write short notes on: (2½ Marks Each)
- (a) Composition of ORS
 - (b) Post exposure prophylaxis in rabies
- Q.3. Describe the mode of transmission, clinical manifestation and diagnosis of Coronavirus disease-19 (Covid-19). (5 Marks)
- Q.4. Enumerate the symptoms of drug addiction. (5 Marks)
- Q.5. Describe forms of protein energy malnutrition. Describe methods of early detection of PEM. (5 Marks)

Paper Code : 11016
MBBS 3rd Professional Part-I.
Send-up Examination – February 2020
Community Medicine

Paper First

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

- Q.1. Describe natural history of disease. Discuss various levels of prevention & their modes of Interventions. (8 Marks)
- Q.2. Describe steps of Diarrhoeal outbreak investigation in a village with 120 cases in last 3 days in the population of 300. (10 Marks)
- Q.3. Write short notes on the following : (4 Marks Each)
- (a) Screening of diseases
 - (b) Histogram
 - (c) Spectrum of health

Part B

(30 Marks)

- Q.1. Define exclusive breast feeding. Enumerate advantages of breast feeding. Discuss strategies under BFHI for breast feeding promotion. (8 Marks)
- Q.2. A 8 months old baby comes to your clinic with 6 episodes of diarrhoea in last 24 hours. On examination child is thirsty, skin pinch goes back very slowly, drinking poorly & has sunken eyes. Write down the steps of management of this child according to IMNCI guidelines. (10 Marks)
- Q.3. Write short notes on the following : (4 Marks Each)
- (a) Bacteriological surveillance of water
 - (b) Emergency contraceptives
 - (c) Insecticide Resistance

Paper Code : 11017
MBBS 3rd Professional Part-I
Send-up Examination – February 2020
Community Medicine
Paper Second

TIME: 3 hours

Maximum marks: 60

Note: Attempt all questions. Write answers in separate answer sheets for Part A and Part B. Explain your answers with appropriate diagrams.

Part A

(30 Marks)

- Q.1. Write down the epidemiology of Tuberculosis, sputum examination schedule & important strategies under RNTCP guidelines. (10 Marks)
- Q.2. Enumerate micronutrients of public health importance in India & deficiency disorders associated with them. Discuss various preventive measures for nutritional Anemia. — 602 (8 Marks)
- Q.3. Write short notes on the following : (4 Marks Each)
- (a) World Health Day 2017
 - (b) JE Vaccine
 - (c) Syndrome approach for STD's — 471

Part B

(30 Marks)

- Q.1. Enumerate modifiable & non-modifiable risk factors for Diabetes Mellitus. Write down the preventive strategies under diabetes control Programme. (10 Marks)
- Q.2. Rajesh Kumar, 20 years male reported at PHC with Dog bite (street dog) on left leg with bleeding wound. Discuss in brief the line of management for this case. (8 Marks)
- Q.3. Write short notes on the following : (4 Marks Each)
- (a) ESI Act 1948
 - (b) Primary Health Care
 - (c) Network analysis

FIRST TERMINAL EXAMINATION

Community Medicine

2016 Batch (6th Semester)

Venue: Examination Hall

Date: 29-07-2019

Time: 3 hours

Max Marks: 100

Note: Twenty marks will be awarded for overall attendance for more than 75%. Attempt all the questions. Write answers in separate answer sheet for Part A and Part B and write answers in sequence. Explain your answers with relevant and appropriate diagrams and flow charts.

Section A

Long Question (10 Marks each)

1. Describe various levels of prevention. Write in detail about modes of interventions. Write one example of each level of preventions and each mode of interventions (Marks 3+3+4=10)
2. Define screening. Describe various types of screening. Write the uses of screening. (Marks = 2+4+4= 10)

Short Question (5 Marks each)

1. Basic steps and design of Randomized Control Trial
2. Secondary Attack Rate
3. Proportional Mortality Ratio
4. Schematic diagram of the design of case control and cohort studies

Section B

Long Question (10 Marks each)

1. Enumerate objectives of Antenatal Care (ANC). Write in detail about Preventive services for mothers during ANC Check-up. (Marks 4+6 = 10)
2. Write Classifications of Foods. Describe role of essential nutrients in health. Explain Limiting Amino Acids with Example. (Marks = 4+3+3=10)

Short Question (5 Marks each)

1. Low Birth Weight
2. MCH Problems
3. Genetic Counselling
4. Risk Approach to improve MCH care

Mark

SEND UP EXAMINATIONS MAY-JUNE, 2018

Community Medicine (Paper I)

Venue: Examination Hall

Date: 23-05-2018

Time: 2:00 PM To 5:00 PM

Max Marks: 100

Section A

Long Question (15 Marks each)

1. Describe natural history of diseases, various levels of prevention, modes of interventions and determinants of health(Marks5+5+5=15)
2. Integrated approach for vector control. (Marks =15)

Short Question (5 Marks each)

1. Basic steps of Randomized Control Trial
2. Types of Screening
3. Sampling
4. Measures of central tendency

Section B

Long Question (15 Marks each)

1. Define MMR. Write various causes of Maternal Mortality in India. Write in brief about a national Programme for control of Maternal Mortality in India. (Marks 3+6+6=15)
2. Enumerate objectives of Antenatal Care and write in detail about Preventive services for mothers. (Marks 5+10= 15)

Short Question (5 Marks each)

1. Iceberg phenomenon
2. Monitoring of Air Pollution
3. Types of Genetic Counselling
4. Draw the Disaster Management Cycle

SEND UP EXAMINATIONS MAY-JUNE, 2018
Community Medicine (Paper II)

Venue: Examination Hall
Time: 2:00 PM To 5:00 PM

Date: 24-05-2018
Max Marks: 100

Section A

Long Question (15 Marks each)

1. Describe Epidemiology of Measles and also write in details about prevention and control of Measles. (Marks 5+10=15)
2. Define balanced diet. Write its importance in pregnant and lactating mother. Plan a balanced for pregnant and lactating mother (Marks 3+6+6=15)

Short Question (5 Marks each)

1. GOBIFFF
2. Classification of Malnutrition
3. DOTS Plus
4. Post-exposure Prophylaxis of dog bite

Section B

Long Question (15 Marks each)

1. Describe Various Risk Factors and Prevention and control measures for Diabetes Mellitus. (Marks 5+10=15)
2. Describe National Vector-Borne Disease Control Programme. (Marks =15)

Short Question (5 Marks each)

1. Anganwadi workers
2. Planning Cycle
3. Syndromic Approach Management with examples
4. ESI Act

Send Up Examination Third Professional Part I (2010 Batch)

Community Medicine (14 Jan 2015)

Paper I

{Time: Three hours}

{Maximum Marks: 60}

Note: Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part A {Marks :30}

1. Classify Epidemiologic methods. Describe in detail about "case control study".
5+8=13

2. Write short notes on following: 3+3+3=9

- (i) Epidemiological triad (ii) Health hazards of air pollution
(iii) Emergency contraceptive Methods

3. Write short notes on following: 4+4=8

- (i) Sampling Methods (ii) Integrated approach for vector control

Part B {Marks :30}

1. Define MMR and write the causes of MMR in India. Describe in brief national programmes for the control of MMR in India. { 2+4+7=13}

2. Write short notes on following: 3+3+3=9

- (i) Uses of screening (ii) Uses of growth chart (iii) Prenatal Diagnosis

3. Write short notes on following: 2+3+3=8

- (i) Function of Family (ii) Herd Immunity (iii) Latent period

Send Up Examination Third Professional Part I (2010 Batch)

Community Medicine (15 Jan 2015)

Paper II

{Time: Three hours}

{Maximum Marks: 60}

Note: Attempt all questions. Write answer in separate answer book for Part A and Part B. Explain your answer with appropriate diagrams.

Part A {Marks :30}

1. Describe the epidemiology of Measles and its public health importance; write in brief prevention and control of Measles. (6+7=13)

2. Write short notes on following: 3+3+3=9

(i) Window period of HIV (ii) WHO (iii) Nutritional Anemia

3. Write short notes on following: 2+3+3=8

(i) Triage (ii) Health Education versus Propaganda (iii) DOTS Plus

Part B {Marks :30}

1. Write in short the following: 6+7=13

(i) Population norms, staffing pattern, IPHS standards and Functions of Sub center.

(ii) Write in brief risk factors and prevention and control of Hypertension.

2. Write short notes on following: 3+3+3=9

(i) FRU (ii) Asbestosis (iii) Risk factors and screening of cervical cancer

3. Write short notes on following: 2+4+2=8

(i) PERT (ii) WHO classification & treatment of Leprosy (iii) ASHA
